submissions:

closed (15 May 2023)

Message from the Guest Editor

This Special Issue on “Value-Added Utilization Processes of Industrial Wastes” aims to cover advanced and innovative processing technologies for industrial wastes valorization.

Topics include, but are not limited to:

- Innovative processes for wastes valorization
- Insights into developing potential processes for valorization of different wastes via chemical, thermal, biological, and electrochemical processes in order to obtain value-added products
- Case studies of application of various waste valorization processes, focusing on the integration into current waste management systems

Special *Issue*

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access:— free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, AGRIS, and other databases.**

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
