Message from the Collection Editors

Dear colleagues,

To celebrate the launch of the new Discoveries in Remote Sensing Section, we invite authors to submit to our feature paper special issue. Authors will demonstrate alignment with our action plan to promote diverse teams and authorships that are inclusive of many perspectives.

Articles may include, but are not limited to:

1. Innovative remote sensing applications, methods, technology, theory, discussions, and ethics that promote our common goal;
2. Transdisciplinary collaborations in support of the Sustainable Development Goals (SDGs) and Sendai Framework;
3. Collaborative research that includes local and/or indigenous peoples as an alternative to 'parachute' studies;
4. Frameworks for more inclusive approaches in remote sensing research;
5. Critical reviews on the benefits of diverse and inclusive approaches, and how this can be better incorporated into our discipline; and
6. Education and leadership in remote sensing.

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (*Geosciences, Multidisciplinary*) / CiteScore - Q1 (*General Earth and Planetary Sciences*)
