

Remote Sensing for Post-disaster Phase: Damage Assessment, Reconstruction and Monitoring

Guest Editors:

Prof. Dr. Fabio Dell'Acqua

Department of Electrical,
Computer, Biomedical
Engineering, University of Pavia,
Italy - Ticinum Aerospace s.r.l.,
Pavia, Italy

Mr. Ronald T. Eguchi

CEO, ImageCat Inc.

Prof. Dr. Fumio Yamazaki

1. Chiba University, Chiba 263-
8522, Japan
2. National Research Institute for
Earth Science and Disaster
Resilience (NIED), Tsukuba 305-
0006, Japan

Deadline for manuscript
submissions:

closed (31 August 2019)

Message from the Guest Editors

Dear Colleagues,

This Special Issue will draw from ongoing advancements and novel developments of methodologies, and best case studies, demonstrating the use of EO technology in this context. We encourage submission of both review and original research articles related to the different aspects of response and recovery. The special issue will include, but will not be limited to, the following topics:

- Damage assessment and mapping using space-based and airborne Earth observation data;
- Recovery monitoring;
- Risk and hazard assessment;
- Vulnerability and exposure information, and their use in improving damage assessment;
- Insurance policies and claim vetting;
- Open data and big data in risk and damage assessment;
- Deep learning in damage assessment
- Crowdsourcing and participative sensing

Prof. Dr. Fabio Dell'Acqua

Mr. Ronald T. Eguchi

Prof. Dr. Fumio Yamazaki

Western Geographic Science
Center (WGSC), 2255, N. Gemini
Dr., Flagstaff, AZ 86001, USA

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (*Geosciences, Multidisciplinary*) / CiteScore - Q1 (*General Earth and Planetary Sciences*)
