Message from the Guest Editors

Research on cyber risks and security is by nature multi-disciplinary and involves researchers from data analytics, economics, finance, forensic science, information systems, IT, management science, and mathematics. The journal *Risks* offers an ideal platform to gather forefront research from different fields on the complex subject of cyber risk and security. This Special Issue aims at publishing high-quality papers focused on quantitative analysis and management on this topic.

Our ambition is to offer a discussion of the state-of-the-art and introduce new theoretical or/and practical developments in this field. We welcome papers related to, but not limited to, the following topics (in alphabetic order):

Message from the Editor-in-Chief

Risks is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.
