Message from the Guest Editor

Dear Colleagues,

Management of financial risk in enterprises is a necessity, especially today during the Covid-19 pandemic. It manifests itself in the implementation of appropriate risk management principles in the company, or a selected policy or strategy for managing a company. Today, managers of entities classified as SMEs should select and adapt such financial risk management tools in an enterprise to avoid the risk of losing financial liquidity, reduce credit risk, the risk of lowering financial results, the risk of reducing revenues and increasing the possibility for further development of the enterprise.

Considering the above, this Special Issue looks for outstanding research and development results, case studies, and review papers in topics that include but are not limited to the following:

- financial risk management
- risk models
- risk measures
- risk analysis
- risk management in multi-entity organizations
- the covid -19 pandemic and financial risk in SMEs

Message from the Editor-in-Chief

Risks is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High visibility: indexed within **Scopus**, **ESCI (Web of Science)**, **EconLit**, **EconBiz**, **RePEc**, and **other databases**.

Journal Rank: CiteScore - Q1 (*Economics, Econometrics and Finance (miscellaneous)*)
