

*sensors*

Dear Colleagues,

On behalf of the award committee, we are pleased to announce the winner of the *Sensors* 2022 Travel Award in Vehicular Sensing.

## 2022 TRAVEL AWARD IN VEHICULAR SENSING

# WINNER

The award has been granted to Dr. Kai Wu, a postdoctoral fellow in the Global Big Data Technologies Centre (GBDTC) at the University of Technology Sydney (UTS). Dr Wu is a promising early-career researcher who has made significant contributions to advanced joint wireless communication and vehicular sensing, one of the most important technologies for the future, for 6G networks in particular.

With so many high-quality applicants, the evaluation process and final decision were particularly challenging. We would like to thank all the applicants for submitting their diverse and fascinating range of research topics. On behalf of the assessment committee, we congratulate the winner on his accomplishments.

Kind regards,  
*Sensors* Editorial Office
