### Message from the Guest Editors

This Special Issue welcomes papers describing sophisticated applications of WSNs and the IoT, which stand out because of their large scale and/or involved technologies. Detailed descriptions are expected, which highlight all design aspects in an organized way. Any application field can be considered, either in the WSN or the IoT context. The relevance and sophistication of the application, the structure of the paper, and the quality of descriptions and illustrations are essential aspects in the evaluation of manuscripts.

Deadline for manuscript  
submissions:

**31 July 2024**
