Sensing Techniques and Artificial Intelligence in Cybersecurity Systems Engineering

Guest Editors:

Dr. Hyoungshick Kim
Department of Computer Science and Engineering, College of Computing, Sungkyunkwan University, Seoul 06351, Republic of Korea

Dr. Jin B. Hong
Department of Computer Science and Software Engineering, University of Western Australia, Perth, Australia

Prof. Dr. Ji Won Yoon
School of Cyber Security, Korea University, Seoul 02841, Korea

Deadline for manuscript submissions:
closed (31 March 2023)

Message from the Guest Editors

Dear Colleagues,

Sensing technologies, artificial intelligence (AI), and machine learning have a great impact on human life and industry. Cybersecurity systems engineering is the most significant, urgent task to build a trustworthy and dependable infrastructure for human life and industry.

This Special Issue aims to present various cybersecurity solutions using innovative emerging technologies, including sensing techniques, blockchain, artificial intelligence, and machine learning.
The topics of interest include but are not limited to:

- Cybersecurity in IoT, IIoT, ad hoc and sensor networks;
- Cybersecurity of robotics and autonomous systems;
- Blockchain for cybersecurity;
- Sensor identity protection;
- Cybersecurity in digital manufacturing;
- Sensing techniques and artificial intelligence in secure computing;
- Invasion, privacy attacks and defenses against machine learning;
- Challenges of machine learning for cyber security;

Please contact the Guest Editors or the Assistant Editor at (ava.jiang@mdpi.com) for any queries. Please visit the website for more information.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.
Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
