Message from the Guest Editor

Dear Colleagues,

The development of electronic and photonic technologies has promoted the development of terahertz sensing and imaging. In turn, advances in terahertz sensing and imaging have improved its performance, complexity, spectrum, resolution, and speed. In this Special Issue, we aim to present a series of studies related to terahertz spectroscopy and imaging for agricultural and healthcare applications. We invite contributions on sensors and imaging devices, systems, and methods, as well as agricultural and healthcare applications. Breakthrough approaches to terahertz sensing are particularly encouraged.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
