Deadline for manuscript submissions:
closed (31 March 2022)

Message from the Guest Editors

Dear Colleagues,

Sensors welcomes submissions to this Special Issue on "Artificial Intelligence and the Internet of Things in Health Applications".

The complexity and dramatic increase in the amount of data in health applications have led to the development of Artificial Intelligence (AI) systems within the field. The Internet of Things (IoT) will allow for more connected, remotely managed health conditions. In addition, there is a growing interest towards cloud computing and, more recently, Fog and Edge computing for time-sensitive applications and real- time analytics. To this end, this Special Issue is looking for articles that provide unique insight into the development of IoT or AI-enhanced methods in health applications.

Special Issue

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.
Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
