Message from the Guest Editors

Dear Colleagues,

This Special Issue of the journal *Sensors* is focused on emotion recognition methods based on such sensory data. We are inviting original research articles covering novel theories, innovative machine learning methods, and meaningful applications that can potentially lead to significant advances in this field. The goal is to collect a diverse set of articles on emotion recognition that span across a wide range of sensors, data modalities, their fusion, and classification. Topics include but are not limited to:

- emotion recognition
- affective computing
- sensory data processing
- sensors
- human–computer interaction
- biomedical signal processing

For more information on the issue, please visit the Special Issue website at: <https://www.mdpi.com/si/114035>

Please contact the Guest Editors or the Assistant Editor at (ava.jiang@mdpi.com) for any queries.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
