Sensing, Navigation, Control and Communication of Autonomous **Robotic Systems**

Guest Editors:	Message from the Guest Editors
Dr. Leszek Ambroziak	Dear Colleagues,
Dr. Jesús Rodríguez Molina	We invite submissions to a Special Issue.
Dr. R Venkatesha Prasad Deadline for manuscript submissions: closed (31 January 2024)	Intelligent robotics, artificial intelligence and the autonomy of a technical system are drivers of economic and strategic development for every modern country worldwide. Artificial intelligence and robotics systems allow machines, devices, and high-tech systems to analyze their environment and make autonomous decisions to achieve specific goals or a long-term strategy, replan these goals. In all applications, all types of onboard communication, control, navigation, tracking and sensing systems determine the success of the mission. The navigation, control and communication of autonomous vehicles, necessitate thorough and precise analyses, low-level control and navigation syntheses,
	simulations and the preparation of hardware experiments. This Special Issue is focused on new developments in control, navigation, communication, tracking and sensing by Autonomous Unmanned Systems used for civil and military applications.

For detailed information, please visit here.

Message from the Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases. **Journal Rank:** JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
