UAV Based Wireless Sensor Networks in Smart Cities

Guest Editor:

Prof. Dr. José Javier Astrain

Mathematical Engineering and
Computer Science Department,
Public University of Navarre,
31006 Pamplona, Spain

Deadline for manuscript
submissions:

1 June 2024

Message from the Guest Editor

This Special Issue aims to address these challenges and provide adequate results for these issues in the field of smart cities.

This Special Issue solicits high-quality contributions that address these challenges and provide adequate results for these issues in the field of smart cities. In particular, we encourage original and high-quality submissions related to one or more of the following topics (not limited to):

- Artificial Intelligence in Unmanned Aerial Vehicles: communications, command & control, autonomous fly, collision avoidance systems, collaboration...
- Internet of Flying Things: enabling technologies, applications, challenges, and trends.
- Internet of Things-based vehicular networks: cloud, edge and fog approaches.
- Image Processing in Unmanned Aerial Vehicles: critical infrastructure monitoring, emergency response, disaster forecasting, crowd control, evacuation management, ecological monitoring...
- Privacy and cybersecurity: proper management of the information lifecycle, development of regulations to ensure security and privacy.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
