an Open Access Journal by MDPI

Deep Learning-Based Image and Signal Sensing and Processing

Guest Editors:

Prof. Dr. Jian-Jiun Ding

Graduate Institute of
Communication Engineering,
National Taiwan University,
Taipei 10617, Taiwan

Prof. Dr. Feng-Tsun Chien

Institute of Electronics, National
Yang Ming Chiao Tung University,
Hsinchu 300093, Taiwan

Dr. Chih-Chang Yu

Department of Information and
Computer Engineering, Chung
Yuan Christian University,
Taoyuan 320314, Taiwan

Deadline for manuscript
submissions:

30 June 2024

Message from the Guest Editors

Deep learning is very effective in signal sensing, computer vision, and object recognition. Many of the advanced sensing image and signal processing algorithms proposed in recent years are related to it. Deep learning is a critical technique in image sensing and signal sensing. In image processing, deep learning techniques have been widely applied in object detection, object recognition, object tracking, image denoising, image quality improvement, and medical image analysis. In signal processing, deep learning techniques can be applied to speech recognition, musical signal recognition, source separation, signal quality improvement, ECG and EEG signal analysis, and medical signal processing. Therefore, deep learning techniques are important for both academic research and product design. In this special session, we encourage the authors to submit the manuscripts that are related to the algorithms, architectures, solutions, and applications adopting deep learning techniques.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
