Deadline for manuscript submissions:
closed (20 August 2023)

Message from the Guest Editors

Dear Colleagues,

Marine robots, such as surface vessles, underwater vessles, have been widely used for ocean monitoring, survey, serach and rescure tasks. Perception, planning and control play an important role when performing such tasks. This special issue will focus on the use of sensors to address marine robotic challenges in the complex ocean enviroment, dealing with both the scientific foundations of sensors and their use and applications on marine robots.

For detailed information, please visit here.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.
Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
