Message from the Guest Editors

Dear Colleagues,

With the aim to bridge the novel sensing and digital technologies with medical and health applications, we are pleased to invite you to contribute to the state-of-the-art on novel sensing technologies for digital health.

This Special Issue aims to collect a series of manuscripts that will help propel the state-of-the-art in sensing devices and related digital technologies, which will help make digital healthcare a reality accessible to everyone, everywhere.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following topics:

- Photonic sensing for biomedical applications
- Sensing for health care
- Big data analytics for healthcare
- Artificial intelligence for digital health
- Smart devices for digital health
- Smart wearables

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
