

Advanced Methods for Separation and Analysis of Natural Products

Guest Editor:

Dr. Chua Lee Suan

Faculty of Engineering, Universiti
Teknologi Malaysia, Skudai,
Malaysia

Message from the Guest Editor

To ensure the quality of the products or herbal extracts, it is of great importance to apply technically reliable analytical methods for quality assurance. Therefore, this Special Issue is introduced to gather any advanced technologies from worldwide researchers with the aim to enhance the values of local natural products.

Deadline for manuscript

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Chromatography*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 13.6 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2023).
