Deadline for manuscript  
submissions:

**closed (31 October 2021)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to gather works and studies devoted to the actual deployment of ICT-based urban services, innovative proposals ensuring system interoperability, solutions for urban and personal data privacy, and techniques for urban data exploitation. Relevant topics of interest include but are not limited to:

- ICT applications for smart cities;
- Data and information models for city verticals and services;
- Tools for urban data representation and analysis;
- IA driven systems and application for smart cities;
- Digitalization of city systems and services;
- Integration and interoperability of ICT systems in smart cities;
- ICT systems replicability in smart cities;
- Personal data privacy in urban services;
- Block chain applied to the smart city.

an Open Access Journal by MDPI

### **Prof. Dr. Pierluigi Siano**

Department of Management and  
Innovation Systems, University of  
Salerno, 84084 Salerno, Italy

## Message from the Editor-in-Chief

*Smart Cities* provides an advanced forum for the dissemination of information on the science and technology of smart cities. It publishes reviews, regular research papers (articles) and communications in all areas of research concerning smart cities. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers so that the full experimental results can be reproduced. Manuscripts regarding research proposals and research ideas are particularly welcome.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Inspec](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** CiteScore - Q1 (*Urban Studies*)
