Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Solids* is dedicated to recent advances in the research areas of solid state chemistry, condensed matter physics, and materials science, and comprises a selection of exclusive papers by the Editorial Board Members (EBMs) of *Solids*. The Special Issue will present a collection of both research articles highlighting interesting results of the research groups of our journal's EBMs and review articles where our journal's EBMs discuss key topics in the field.

Prof. Dr. Stefano Agnoli
