Deadline for manuscript submissions:

closed (20 December 2023)

Message from the Guest Editor

Dear Colleagues,

We welcome papers dealing with all aspects of resection. In particular, surgical resection of a tumor can be performed for many types of cancer. We invite you to co-create, with the aim of presenting the best proven practices, innovative clinical management, and prospects for the development of surgical resection.

Submitted manuscripts will formally undergo a rigorous peer-review process. All articles published by MDPI are made immediately available worldwide under an open access license.
