University, Sheffield, UK

Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editor

Sustainable enterprise is committed to implementing sustainability principles into its business decisions, operations and supply chains to offer green products or services. Sustainable enterprises involve resource optimization, energy conservation, waste prevention and pollution control, contributing to the transition towards a circular economy. Considering such importance of sustainable enterprises for the circular economy, we propose a special issue in the Journal of ‘Sustainability’ that highlights the knowledge, policy and practice regarding sustainable enterprises under a circular economy. The editorial team welcomes academics and practitioners to submit papers that contribute both knowledge and policy.

This special issue will accept submissions in all areas of sustainable enterprises, but special consideration will be given to the following topics:

Corporate governance of sustainable enterprises

Prospects and challenges for sustainable enterprises

Innovation in sustainable enterprises

Corporate social responsibility and sustainable enterprises

Entrepreneurship in sustainable enterprises

COVID-19 Pandemic and sustainable enterprises

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
