Deadline for manuscript
submissions:

31 October 2024

Message from the Guest Editors

Food demand is expected to increase anywhere between 59% to 98% by 2050, which raises great concerns over a global food crisis in the future. In order to address this pressing issue, the concept of a sustainable food system has been proposed and has attracted lots of attention. As defined by the United Nation's Food and Agriculture Organization, a sustainable food system should be environmentally friendly, socially beneficial and economically viable. To meet these requirements, researchers in both academia and industry have been making tremendous efforts to develop innovative food science and engineering techniques throughout all stages of the food industry from production to consumption.

This Special Issue will summarize the recent progress and initiatives to improve sustainable food systems and provide up-to-date studies on innovative approaches to enhance sustainability in food science and engineering.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
