Message from the Guest Editors

Dear Colleagues,

Today, the global economy is working tirelessly to preserve the ecosystem's sustainability in the face of numerous pollutants that pose a great hazard to human health and the environment. Evidence abounds that global warming is among the most critical challenges of the current era, which has sparked many extreme weather destructions and health issues. This situation has prompted the concept of global environmental governance leading to various conferences and events organized by environmental institutions and global leadership to combat climate change. However, the goal to reduce global warming and achieve environmental sustainability is unlikely to be realized without boosting eco-innovation, shifting to green energy, and ensuring sustainable natural resource extraction and consumption.

Looking forward to your contributions.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
