### Message from the Guest Editor

This Special Issue is dedicated to the field of novel and engineering solutions in the sustainability of advanced composite materials and structures. In summary, the Special Issue has a particular focus on, but is not limited to, advanced composites with respect to eco-friendly sustainable composites, polymer composites, fibre reinforced polymers (FRP), recycling techniques, life-cycle assessment, light-weighting, advanced manufacturing and design for higher performance products, cradle-to-grave design, and condition monitoring or prediction for sustainability.

In this Special Issue, research-, development-, and application-related submissions sharing promising techniques and strategies on the topic of composites science and technology, composites design and manufacturing, composites sustainability, and all other related domains are welcome.

This Special Issue aims to present original articles, reviews, short communications, research notes, analyses, and case studies.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
