Deadline for manuscript  
submissions:

**closed (1 May 2021)**

### Message from the Guest Editors

Dear Colleagues,

Global warming is one of the greatest challenges of our times. Scientists regard anthropogenic greenhouse gases—those resulting from human-induced sources—as the main contributor. So, we humans must change our behavior in the short term to mitigate the effects of global warming in the long term. However, despite the efforts of politicians, policymakers, and activists, climate action lies behind.

Traditionally, technological, financial, and institutional barriers have been identified as important hindrances to climate action. However, over the years, research has indicated that psychological barriers are also playing a defining role, and different schools of thought from psychology, behavioral economics, and new institutional economics try to explain these barriers in terms of biases, heuristics, hassles, and transaction costs (e.g., de Vries, 2020; de Vries et al., 2019; Ebrahimigharehbaghi & Qian et al., 2019, 2020; Gifford, 2011; Hoppe & de Vries, 2019; Huijts et al., 2019)...

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
