Message from the Guest Editors

The combination of the computer and distributed networks during the last several decades has led to two ‘Digital Revolutions’ that today allow anyone to create, disseminate, and access any information anywhere, any time and from any smart device. The birth of the ‘Digital Age’ is a result of a research ecosystem that was nurtured by government spending and military–industry–academia collaboration, along with the alliance of community organisers, communal-minded hippies, do-it-yourself hobbyists and homebrew hackers. This Special Issue invites papers reviewing, empirically exploring or theoretically expanding the City 4.0 concept and practice from the angle of urban planning and development (or in simple terms, urban planning and development in the age of Industry 4.0). We welcome manuscripts that contribute to conceptualisation, policy, strategy, legislation, process or practice or at their interfaces, in the form of empirical research articles, systematic literature reviews, case reports, viewpoints, perspectives and short communication pieces.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
