of Information Systems,  
University of Haifa; The Center for  
Research and Study of Aging,  
University of Haifa, Haifa, Israel

Deadline for manuscript  
submissions:

**20 October 2024**

### Message from the Guest Editors

There is limited academic research on the complexities of the intersection between research on human–animal relations and urban rural space, environmental sustainability and policy and finally governance and politics. Systematic theories, suitable methodologies and practical guidelines for capturing the administrative effects of encounters between people and animals and their consequences for sustainable local governance and policies are in their infancy. However, regulators and local authorities are already forced to cope with issues related to sustainability far beyond the ecological aspects that are reshaping the social, cultural and political fabric of the world. Regulators and local authorities must develop a spatial response to this new reality in which animals and wild animals enter and dwell in rural and urban spaces. Thus, this Special Issue invites the submission of original papers on observations that connect human–animal interactions and sustainable local governance. Its aim is to investigate sustainability and sustainable local governance from a less-explored viewpoint, i.e., human–animal interactions.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
