Deadline for manuscript  
submissions:

**30 September 2024**

### Message from the Guest Editor

Dear Colleagues,

It is well understood that the earth's environment suffers considerably at the hands of human activity. Of all the industries around the world, the textile industry remains one of the most detrimental to the environment, from significant depletion and contamination of natural resources during manufacture to millions of pounds of textile waste a year. Hence, innovations in fiber and material science are necessary in order to both lessen the burden that the industry poses and to create state-of-the-art solutions that help to solve the overarching environmental crisis at hand.

The scope of this special Issue is to bring attention to recent innovations in fiber and material science that emphasize sustainable solutions.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Advanced materials;
- Biodegradable polymers;
- Fibrous materials;
- Composites;
- Novel fibers;
- Advanced technology.

I/We look forward to receiving your contributions.

Dr. Kavita Mathur

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
