Deadline for manuscript submissions:

30 June 2024

Message from the Guest Editor

Dear Colleagues,

A sustainable energy system is a major challenge in energy systems. There are many initiatives and innovations that are required to solve the challenges and to ensure a sustainable energy supply as well as energy security. As part of the initiatives and innovations of sustainable energy systems, this Special Issue will investigate the challenges, potential energy technologies, energy analysis, energy efficiency, energy storage, energy management, energy economics and related policies. Relevant areas include, but are not limited to, the following:

- Challenges in the energy sector.
- Energy demand in different sectors.
- Sustainable energy systems.
- Clean energy technologies.
- Energy systems and energy analysis.
- Energy efficiency.
- Energy consumption and energy savings.
- Energy storage.
- Energy economic.
- Energy policies.
- Energy incentive and social benefits.
- Renewable energy integration.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
