Message from the Guest Editors

The studies of this Special Issue "Sustainable Management of Heavy Metals II" are expected to address:

- The source and distribution of heavy metals in the environment (soil, water, air, living organisms, waste).
- The mapping of areas at a global and regional scale where pollution is a high risk.
- The consequences of heavy metals on the environment and food security.
- The relation of trace elements with zero waste strategy and circular economy.
- Sustainable strategies for the remediation of heavy metal pollution.
- The impact of metals in environmental policy.
- Methods to remove and or uptake heavy metals.

Keywords

- distribution
- environmental health
- food security
- metal extractions
- metals leachability
- pollution
- remediation
- strategies in metal science

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
