Message from the Collection Editor

The COVID-19 (Novel Coronavirus—Sars-Cov-2) pandemic has been declared a global pandemic by the World Health Organization due to its devastating impact on humanity. In line with the SDGs and the ongoing COVID-19 pandemic, we invite papers on the following topics:

- 1) Chemicals—waste management—water and sanitation and COVID-19;
- 2) COVID-19 and the environment: transmission via surfaces, air, water, soil—detection of COVID-19 virus—the impact of environmental factors on transmission, survival, and infectivity such as wetness, dryness, temperature, relative humidity, sunlight, and air pollution (particulates, bioaerosol);
- 3) COVID-19 and oceans and blue economy—biodiversity and wildlife;
- 4) COVID-19 and economic growth, green recovery/greening economies;
- 5) Effective containment and preventive options and strategies for present and future spread, i.e., face masks, hand wash, disinfection technologies in public places and healthcare facilities;
- 6) Forecasting short- and long-term impact of the COVID-19 pandemic owing to current intervention and preventive measures.
