Message from the Guest Editor

The ongoing landscape transformation worldwide has raised global concern, as it involves the need to rethink the post-industrial landscape while protecting industrial heritage and the environment. This is especially true for post-industrial heritage sites, currently abandoned and suffering accelerated degradation and speculation processes. Instead of consuming green lands, these heritage landscapes need to be redeveloped and given new life, enabling their transition to an increasingly sustainable urban setting. In this scenario, the present Special Issue considers a set of subjects that highlight the diverse nature of the scientific domains associated with the post-industrial, emphasizing the need to acknowledge that the contribution of each sustainability dimension is equally important, offering complementary development opportunities while enabling redeveloped landscapes to fulfil multiple functions in an integrated way, and protecting our common heritage and underlining the relevance of multifunctionality to promote sustainable urban planning and development.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
