submissions:

31 January 2025

Message from the Guest Editors

Dear Colleagues,

The urgent global shift toward sustainability is reflected in the dynamic field of nanomaterials, where pioneering research aligns with environmental and energy imperatives. This Special Issue on "Nanomaterials for Sustainable Applications: Current Development and Future Trends" offers an in-depth look at these materials through the prism of sustainable innovation.

It emphasizes the necessity for interdisciplinary approaches to ensure that nanotechnological advancements contribute positively to environmental goals and sustainable practices. Through these discussions, this Special Issue aims to catalyze further innovation in nanomaterials while adhering to the principles of sustainability and eco-friendliness, thus shaping a sustainable future for all.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
