Occupational Medicine Research  
Unit, Sapienza University of  
Rome, 00185 Rome, Italy

Deadline for manuscript  
submissions:

**28 June 2024**

### **Message from the Guest Editor**

The working environment, which can be considered a crucial part of the sustainable living environment, exposes workers to various kinds of health risks, and alterations of risks can be potentially caused by the workers' biological balance, or by the transversal and organizational factors. The main task of occupational physicians is to protect the worker's health by assessing risk and sustainability, planning preventive measures, and health surveillance.

Today, achieving sustainable development is deemed a global consensus, although the issues involving employees' well-being have been highly discussed, limited research has been conducted at the intersections of organizational sustainability, employee well-being, and occupational environment exposure.

Our Special Issue welcomes contributions that involve topics related to existing risk factors, or new risk factors linked to the development of new working methods, with a focus on the activity of all the participants of the workplace for enhanced risk prevention and sustainable management.

### **Keywords**

- Occupational environment exposure
- Risk factors
- Health of workers
- Sustainable employees' well-being

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
