Message from the Guest Editors

The food industry is one of the largest and most energy-consuming sectors. Since food demand is expected to rise substantially by 2050, food production needs to be increased accordingly. This Special Issue welcomes review papers, original research articles and case studies dealing with the vital role of energy efficiency and management in shaping a sustainable food industry. Research areas may include (but are not limited to) the following:

- Characterization and assessment of energy uses in food industry
- Methods and tools for energy performance benchmarking in food processing
- Best practices for energy efficiency enhancement in food industry
- Key trends and innovations for energy efficiency in food processing industry
- Assessment of energy efficiency improvement via waste heat recovery and valorization
- Consolidated and cutting-edge solutions for low- and medium-grade waste heat recovery in food industry
- Monitoring and control tools of energy efficiency measures
- Valorization of wastes from industrial food processing
- Industrial symbiosis to support the energy efficiency and sustainability of food production processes
- Innovative management practices for sustainable food production

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
