Deadline for manuscript
submissions:

closed (30 April 2019)

Message from the Guest Editors

Dear Colleagues,

For this Special Issue, we encourage papers that focus on either (i) population/demographic impacts on environment/energy or (ii) the consequences of environmental changes on population. The level of analysis could be local, national, regional, or global, and methods employed could range from case-study, comparative analysis, or statistical modeling to projections. Submissions employing multidisciplinary approaches are particularly encouraged. The key criteria are that the paper have demographic component(s)/implication(s).

On the other hand, potential, novel, unsettled topics include:

- Changing household consumption patterns;
- Rural to urban migration;
- Energy poverty/access;
- Energy consumption and environmental dynamics in emerging economies;
- Demographic scenarios on the changing characteristics and vulnerability of population to climate change;
- Role of cities in the energy transformation (i.e., increased renewable energy).

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
