Message from the Guest Editors

Recently, researchers have increasingly focused on the utilization of more complex energy systems integrated with renewable energy sources, domestic intelligent energy automation systems, and intelligent thermoelectric network communications.

Considering the interest of this topic, we are organizing a Special Issue entitled “Smart Zero-Energy and Zero-Carbon District Energy Systems”, with the aim of reporting the most recent new findings from researchers and sector professionals within the scope of the themes below.

Original manuscripts covering the following broad themes are invited from researchers and agencies, namely:

- Smart Zero-Energy Buildings;
- Smart Zero-Carbon District Energy Systems;
- Artificial Intelligence/Machine Learning for District Energy;
- Intelligent Energy Management Systems;
- Zero-Carbon District Cooling/Heating Systems;
- Smart Low-Carbon Energy Systems;
