Deadline for manuscript  
submissions:  
**closed (31 August 2023)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue invites papers proposing systematic approaches towards the development of smart digital technologies for the conception, innovation, design, and operation of systems for sustainable urban and regional development. The submissions can be research papers, case reports, viewpoints, or literature reviews.

We welcome manuscripts that contribute to policy, strategy, legislation, process, or infrastructure development or their interfaces. The intention of this approach is to invite submissions that will enable us to develop a holistic overview such that different communities working in policy and infrastructure research can establish a dialogue and understand the cross-disciplinary issues and collaboratively devise holistic and globally optimum solutions for sustainable development.

Prof. Dr. Rashid Mehmood

Prof. Dr. Tan Yigitcanlar

Prof. Dr. Juan M. Corchado

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
