Message from the Guest Editors

Dear colleagues,

After two decades passed through the 21st century, the world faces enormous challenges. The economic crisis, the armed conflict, the environmental problem and, currently, the health crisis caused by COVID-19 are several examples of this. This Special Issue invites the scientific community to investigate and reflect on the consequences and opportunities of this multifaceted scenario. Under the title of " Socio-educational Globalization and Ubiquitous Technologies for the Development of Sustainable Citizenship during the COVID-19 Pandemic", the Special Issue is open to research on the importance of socio-educational globalization and the presence of emerging and ubiquitous technologies for the transformation towards a sustainable and equal citizenship in the period of COVID-19. From a multidisciplinary perspective, the special issue aims to publish high-quality articles that cover all fields that answer questions regarding how the phenomena of cultural globalization affect social, technological and educational fields in times of health crisis and how to promote the path to sustainable citizenship in a globalized world.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
