### Message from the Guest Editors

The agriculture industry is essential in the world not only for the economic growth, but also for the sustainability of our living environments. Agricultural goods are particularly the primary source of virgin materials needed for environment-friendly products. However, there are many challenges to sustain the agricultural supply chain management, such as handling of perishable goods, preservation and distribution of products susceptible to weather/temperature conditions, etc. Hence, this special issue aims to bring together the recent advances in research methodologies and their applications to various aspects of agricultural supply chain activities.

Deadline for manuscript  
submissions:

**closed (30 November 2021)**

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Marc A. Rosen**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
