Message from the Guest Editors

Dear Colleagues,

Sustainable development is a multidimensional problem that requires multidisciplinary research. For this reason, it is of interest to representatives of many scientific disciplines. What is more, due to its multidisciplinary character, such representatives face very complex problems. The first is to reveal the hidden assumptions of typical research perspectives and standard rules for the interpretation of the results obtained, which are binding or dominant in the individual disciplines of science; second is to integrate research results based on analogous premises; and third is to create a homogeneous space for conducting multidisciplinary research.

For this reason, we strongly encourage you to submit a manuscript to our Special Issue "Sustainable Geomatics and Civil Engineering". We want to provide the opportunity to exchange experiences and publish valuable research that can affect one's understanding of processes in nature, while developing schemes related to sustainable development.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
