Deadline for manuscript
submissions:

closed (31 January 2020)

Message from the Guest Editors

On the basis of the above-mentioned assumptions, the key issues to answer are the following:

1. How to shape enterprises, including their business models, to the ability to generate sustainable value?
2. How to define sustainable value?
3. Which scientific concepts and practical experience should form the basis of a theory of sustainable value?
4. How the creation of sustainable value can influence the success of enterprises?
5. Can sustainable value be created, delivered, captured and appropriated to a similar degree?
6. How co-creating value affects sustainable value?
7. How to interpret sustainable value on capital markets?
8. Can creating sustainable value affect the migration of values to the capital/financial markets?
9. How to effectively manage sustainable value?
10. Can sustainable value also exist in the public sector and how should it be defined there?
11. How sustainable value is understood in various sectors of the economy?
12. How does the creation of a sustainable value influence the financial and non-financial results of an organization?

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
