EARTH 2022-Green Technologies for Waste Treatment and CO₂ Reduction

| Guest Editors: | Message from the Guest Editors |
|--|--|
| Dr. Li-Pang Wang | Focus: This Special Issue focuses on introducing recycling |
| Dr. Wei-Hao Lee | policy and management, waste treatment, waste management, and CO ₂ reduction throughout East Asia |
| Dr. Ren Xuan Yang | (Korea, Japan, Taiwan, China, and Thailand). |
| Dr. Hsing Jung Ho Deadline for manuscript submissions: closed (31 October 2023) | Scope: Due to the limited resources and increase in CO ₂ concentration in the atmosphere, there are growing pressures and challenges for human beings. To address these problems, waste treatment, recycling and reutilization and reduction of CO ₂ are necessary now to obtain the optimal options for future generations. |
| | Purpose: This Special Issue aims to introduce the new trends in waste treatment, recycling and reutilization, |

recycling policy and management, and CO₂ reduction.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
