Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to deepen the analysis and developments of the multilevel relation between digitalization, (digital) citizens, and (digital) governments from an innovation economic perspective. Especially how the technological dimension is shaping the human dimension and what can be done to train and prepare the human dimension for this new era seem to be key points that need to be addressed [1]. This Special Issue aims to understand the evolution of this complex relation towards a new reality, where the cyclical relation between the perceptions of individuals and their actions shaping their surroundings remain a key issue for understanding this evolution [2]. Both researchers and practitioners are welcome to reflect their perspectives on the role of digitalization and digital governance in an economic context, where contributions can deepen the thirst for a new management and economics perspective integrating human happiness and prosperity as targets for policy agendas [3].

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
