Message from the Guest Editors

Dear Colleagues,

This Special Issue of Sustainability focuses on, but is not limited to, improving the energy efficiency of the indoor environment to satisfy the needs of building occupants. Therefore, in order to guarantee occupant comfort conditions in future sustainable-energy buildings, this issue will cover a wide range of topics including the adaptable, resilient, passive or active design of buildings; assessment and adaptive control of indoor environmental quality; occupants' influence; the effects of climate change in the built environment; and energy and renewable energy installations.
