Sustainability of Future Power Systems: Climate Change Impacts, System Reliability, Renewable Energy Technologies and Grid Integration

Guest Editors:

Dr. Zafar Ali Khan

Dr. Muhammad Imran

Dr. Abdullah Altamimi

Dr. Manuel S. Alvarez-Alvarado

Deadline for manuscript submissions:

closed (20 March 2023)

Message from the Guest Editors

To address these and other challenges, this Special Issue aims to provide a platform for academics, researchers, and engineering professionals to disseminate their research and provide solutions for future power systems.

Topics for the Special Issue include, but are not limited to:

- Climate change impacts on power system
- Power system reliability and resiliency
- Cyber-physical security
- Power system stability
- Renewable energy integration
- Resilient microgrids
- Load forecasting
- · Electrical vehicles
- Demand side management
- Power system planning and operation

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
