Deadline for manuscript  
submissions:

**closed (15 June 2023)**

### Message from the Guest Editors

Dear Colleagues,

Geosynthetics made of polymeric synthetic materials have attracted increasing interest in recent years because geosynthetics often provide efficient, cost-effective, environmentally friendly solutions to engineering problems. Significant advances have been made in the use of geosynthetics in geotechnical, transportation, hydraulic, and environmental engineering applications, as well as in some areas of mining, agricultural, and aquacultural engineering. We, therefore, wish to bring together distinguished researchers from a variety of academic backgrounds with the aim of presenting recent advances including, but not limited to, analytical and numerical solutions, case histories, and field experience in the innovative applications and sustainable development of geosynthetics in the research field of geotechnical, transportation, hydraulic, environmental, mining, agricultural and aquacultural engineering.

The listed keywords suggest just a few of the many possibilities. If you are uncertain about whether your paper fits into the scope of this Special Issue, please feel free to contact the Guest Editors.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
