Deadline for manuscript submissions:

30 June 2024

Message from the Guest Editor

Dear Colleagues,

This Special Issue is dedicated to the promotion and dissemination of knowledge on methods, strategies and technologies to increase the sustainability of the development of the future of education and the new social contract for education by considering global challenges such as globalisation, changing demographics, digital transformation, climate change, environment and social pillars of sustainable development.

We face the dual challenge of delivering on the unfulfilled promise of ensuring the right to quality education for every child, youth, and adult, and of fully realizing the transformative potential of education as a pathway to a sustainable collective future. To achieve this, there is a need for a new social contract for education that can address inequities while transforming the future.

Sustainability is also a perfect field for the interdisciplinary and multicultural assessment of complex systems. In light of all this, this Special Issue is intended to provide an opportunity to develop, discuss, share, and disseminate new ideas within the fields of *Innovation and Sustainable Development of Seamless Education and Teaching Methods*.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
