Message from the Guest Editors

Dear Colleagues,

With this Special Issue, we wish to contribute to a better understanding of the sources of sustainability in NGOs. Thus, the main objective of this Special Issue is to approach the involved topics with new perspectives and methods in order to provide clear evidence from NGOs' realities. We would like to propose the following research questions:

- What are the contextual pressures that influence NGOs' sustainability?
- What are the internal contingencies that influence the implementation of the triple bottom line approach in NGOs?
- How do NGOs provide a space for reconciling individual and social objectives?
- What are the contributions of economic, social, and environmental dimensions for NGO innovation performance?
- What is the appropriate balance among the economic, social, and environmental dimensions for an optimal innovation performance in NGOs?
- What are the governance mechanisms to ensure an effective use of the triple bottom line approach in NGOs?
- What are the most adequate strategic control systems to motorize the triple bottom line use in NGOs?
- What are the most adequate sustainability social entrepreneurship models for NGOs?

Special Issue

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
