Advance in Nonlinear Analysis and Optimization

Guest Editor:

Prof. Dr. Mihai Postolache

Department of Mathematics and
Computer Science, University
Politehnica of Bucharest,
Bucharest, Romania

Deadline for manuscript
submissions:

closed (15 March 2020)

Message from the Guest Editor

Dear Colleagues,

Nowadays, nonlinear analysis and optimization are very active research directions. We have variational inequalities, feasibility problems, numerical algorithms, discrete and continuous optimization, computer simulation, and applications to applied sciences in mind. We will invite contributions to this volume from leaders of these fields, with known results in mathematical analysis and optimization theory.

Dr. Mihai Postolache

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Multidisciplinary Sciences*) / CiteScore - Q1 (*General Mathematics*); Q1 (*Physics and Astronomy*); Q1 (*Computer Science*)
